GDS LEADERSHIP

Anugnya Devanga
Secretary General, GDSMUN

"As the Secretary General of the GDSMUN, I am truly excited to welcome our brilliant young delegates to this historic platform. This event is not only about debating and learning but also about making history as we attempt a National Record together. I feel proud to sign the National Record MUN Certificate for each of you, carrying the symbol of achievement.

Remember, no idea is too small and no voice is too young to inspire change, let's make this journey one to cherish forever!"

Ranjith Kurupp
Founder & Director General, GDSMUN

"As the founder and DG of GDS, it is my privilege to welcome you all to the All Kerala GDSMUN at Christ College. With the aim of providing the best platforms for all youngsters across the country, especially from the unreached regions, this initiative is a significant stepping stone in our journey.

Dear Delegates,
Welcome to the world of diplomacy."

OUR ADVISORY BOARD

Rev. Dr. Jolly Andrews CMI
Principal-in-Charge, Christ College

"Christ College is stepping forward to achieve one of its remarkable milestones in the history of our state by attempting to set a national record for the maximum participation of delegates from Kerala through the All Kerala MUN associated with the Global Debaters Summit (GDS). Dear Delegates, I warmly welcome you to be a part of this historic journey."

Dr. Dinesh Babu M
Strategic Advisor

"I am delighted to be a part of this Global Debaters Summit Model UN, with its focus on UN functioning, negotiations, and diplomacy, serves as a powerful platform that empowers delegates to grow as leaders who will shape tomorrow's world."

Dr. TP Sreenivasan
Chief Advisor

"Having spent twenty years in the halls and corridors of the UN in New York, Geneva, Vienna and Nairobi, I am nostalgic about the UN and I do not miss any opportunity to share my experiences with the younger generations of diplomats and aspiring diplomats. The participants will have a sense of déjà vu when they enter the UN and engage in the real UN. The important thing to do in the MUN is to follow the procedures and practices very strictly.

The UN is also a virtual university to learn the art of negotiations, debates compromises and other aspects of decision making, a skill that is necessary in every profession. Therefore, even if the UN is ineffective because of the geopolitical circumstances, it must continue as the conscience of mankind. MUNs must go beyond imitating the original and proceed to develop new ideas.

I wish GDSMUN every success."
