COLLEGE (AUTONOMOUS)  
IRINJALAKUDA, KERALA

## **METHODOLOGY:**

Each year, the college actively gathers feedback from employers across various institutions, organizations, firms, and companies. This comprehensive initiative aims to gain insights into the general opinions and suggestions regarding the academic quality of the syllabus being taught. In addition to overall feedback, specific emphasis is placed on soliciting suggestions regarding areas that require attention and improvement.

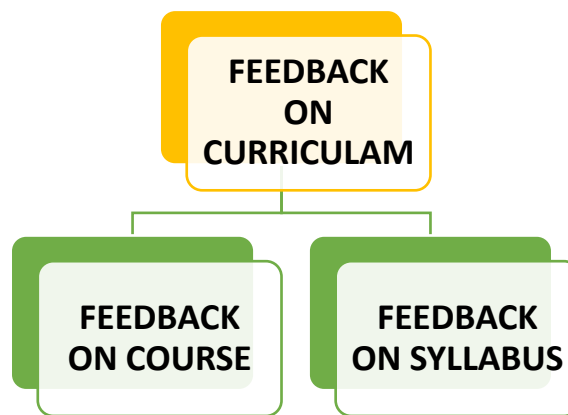

This strategic feedback collection process enables the college to identify and prioritize areas that may be considered weak or underperforming in terms of job attainments. By honing in on these insights, the institution can strategically focus its efforts on enhancing the relevant aspects of the curriculum to better align with the expectations and requirements of the job market.
