FEEDBACK ON CURRICULAM

FROM TEACHERS
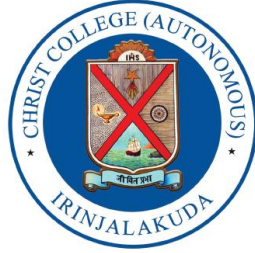

CURRICULAM FEEDBACK FROM TEACHERS

REPORT 2022-23

METHODOLOGY:

The institution actively gathers feedback from teachers through direct questionnaires distributed via Google Forms to gauge their opinions and suggestions regarding the academic quality of the handled syllabus. The feedback is taken seriously, and the institution promptly takes necessary actions based on the suggestions received. This timely analysis contributes to keeping the curriculum updated and relevant to current situations.

The survey involved 202 respondents, and a five-point Likert scale was employed, where a value of 1 represents a strongly agree opinion, and a value of 5 indicates a strongly disagree opinion. The institution values this feedback loop as a crucial element in maintaining the effectiveness and relevance of the curriculum.

Important Suggestions on curriculum and syllabus from teachers

- External Exposure and Research Opportunities: Facilitate field visits, industry tours, and collaborations with professionals.
- Practical Training and Experimental Learning: Integrate hands-on activities, experiments, and projects into the curriculum.
- Incorporate more active learning strategies such as discussions and problem-solving exercises.
- Increase the duration of internships for a more comprehensive practical experience.
- Foster partnerships with industry leaders to align internships with industry practices.
- Revise the syllabus to include more practical and application-oriented topics.
- Collaborate with industry experts to identify key skills for professional success.
- Establish a systematic process for regular reviews and updates in syllabus Review.
- Involve industry professionals and alumni in the review process.
- Create innovation centers or incubators to encourage creative projects.
- Include the latest developments and research findings in the curriculum.
- Foster collaboration between faculty and researchers for updated content.

By implementing these suggestions, educational institutions can enhance the overall learning experience and better prepare students for the professional landscape.
