# A Path Forward

## EDITORIAL

As the festive spirit of Christmas fills the air, we can proudly say that Christ College successfully implemented the FYUGP curriculum, offering 60 Minor Courses across 67 batches, and 18 Multidisciplinary Courses across 25 batches of first-year students. The Departments of Mathematics and Physics (Unaided) introduced Double Major Programs with the Department of Computer Science (Unaided). Additionally, the University of Calicut approved Double Major Programs for the following Unaided departments: Geology and Physics, Geology and Chemistry, Mathematics and Computer Science, Physics and Computer Science, and B.Com Finance and Computer Science.

The Department Councils of the various Boards of Studies have overseen FYUGP implementation, appointed Course-in-Charges, and approved open-ended module syllabi. The college has also implemented digital valuation for all PG programs and UG programs up to the third semester.

Question banks have been developed for all FYUGP, PG courses, and almost all the UG courses; facilitating the generation of question papers for exams and ensuring effective digital evaluation. OBE attainment cards have been distributed to PG students of the 2022-24 batch, marking another milestone in the commitment of the college to academic excellence. With these milestones to celebrate, we are happy and proud to release this winter edition of *IMPRINTS*. May this Christmas season be a bountiful and joyous one for each one of you. Merry Christmas..!
