Introduction

The Academic and Administrative Audit is a peer review process including a self-study and a site visit by peers from inside and outside the institution. The academic audit is allowing the departments to make proper introspection and then proceed to quality improvement.

Academic Audit: - Academic audit can be understood as a scientific and systematic method of reviewing the quality of academic process in the institution. It is related with the quality assurance and enhancing the quality of academic activities in the college.

Administrative Audit: - It can be defined as a process of evaluating the efficiency and effectiveness of the administrative procedure. It includes assessment of policies, strategies & functions of the various administrative departments, control of the overall administrative system etc.

Christ College conducted two Academic Audits (Internal) during the present accreditation period. IQAC conducted a training session on AAA in 2017 March (Report).

Methodology

There are two parts for the audit.

In the first part the departments are directed to prepare Self Study Report (SSR) of the latest completed academic year. HOD/Programme Coordinator prepares the SSR in association with peer teachers. The completed SSR report is sent to IQAC. The process gives an insight to progress made in the previous year. Many departments identify their shortcomings and corrective actions are designed.

In the second part IQAC forms a AAA visit team which include Principal, Vice Principal, IQAC Coordinator and HoD from another department. The visit team visit the department and checks the SSR documents and department files. Suggestions are given in writing and in the concluding meeting the results are shared.
