

OUTCOME BASED EDUCATION

PROGRAMME NAME	SHORT NAME	PROGRAMME CODE
Bachelor of Science, Geology	B.Sc. Geology	CCASGL

PROGRAMME SPECIFIC OUTCOMES (PSOs)	
PSO1	Assess various natural processes, their driving force, materials involved and various geomorphic features produced
PSO2	Construct the deformation history of an area using various geologic features, earth materials and its evolution through geologic time
PSO3	Compile field /lab/ geospatial data on different earth materials and natural processes; evaluate the diverse natural processes and disasters
PSO4	Validate spatial and temporal distribution of various earth resources, comprehend their modes of formation, sustenance and utilisation in diverse fields
PSO5	Compile the evidence from diverse fields of Geology to unravel the evolution of solid earth and life through geologic time
