

OUTCOME BASED EDUCATION

PROGRAMME NAME	SHORT NAME	PROGRAMME CODE
Master of Science, M.Sc. Zoology	M.Sc. Zoology	CCAMZL

PROGRAMME SPECIFIC OUTCOMES (PSOs)	
PSO1	To access detailed information on the recent developments in the biological sciences scenario, in general.
PSO2	To acquire in depth knowledge on various subjects which are of utmost importance for Zoology students, specifically.
PSO3	To garner comprehensive understanding of the latest findings in the fields of biophysics, bioinstrumentation, physiology, molecular biology, biotechnology, immunology, biochemistry of life, cytogenetics and developmental biology.
PSO4	To understand the issues related to environment, resource conservation and sustainable development.
PSO5	To get informed of the exploration in the field of fishery sciences including capture and culture fishery sectors and processing of finfishes and shellfishes along with preparation of value-added fishery products.
PSO6	Hands on participation in the laboratory is provided on all the aforesaid topics and microtomy, based on standard protocols, making the students rather excellent in all fields of zoological studies including fishery sciences.
PSO7	Cardinal importance is given in carrying out dissertation work individually, making every post graduate student exclusively confident in taking up research studies and publication of the results of the work, to enlighten the scientific community in future.
