Sport is a French word meaning 'leisure'. Sports describes an activity involving physical exertion and skill in which an individual or team competes against another or others for entertainment. It is a competitive physical activity or game which provides a platform for the one to express and improve his physical talents or skills. A variety of novels, poems and other expressions of literature have been depicted on the backdrop of issues concerning nature. Today, environmental issues have become a matter of concern for many departments and disciplines of knowledge and development. It is an interesting study for a literary critic to study the text of writers who have discussed close relation between man and nature. Ecology and eco-criticism have become
