## BIODIVERSITY AND CONSERVATION

### (Value Added Certificate Course)

#### Summary Report 2019

#### Course Code: CVAC001

The course began on 3rd October, 2019. There was a total of 119 students and 118 completed the course. The course was 30 hrs long. The students were given the group discussions about conservation strategies, debates assignments, Quiz and assigned readings along with teaching sessions and they actively participated in each session and enjoyed their time.

#### Course Outcome:

Analyzing and evaluating the importance of biological processes on conservation of biodiversity helped the students to think about the importance of conservation. They will be able to critically evaluate current events and public information related to wildlife conservation and management as being scientifically-based or opinion-based and contribute to the knowledge base of information. It helps the students to work with others to coordinate activities that achieve group team objectives.
